Dear Residence Life Hiring Committee,

I am writing to express my interest in the Residence Life Don position at the University of Waterloo. I am
motivated to contribute to a residence environment that is supportive, inclusive, and well-organized, where
students feel comfortable seeking help and building meaningful connections.
Through my leadership and mentoring experiences, I have developed skills that directly align with the
responsibilities of a Don.

As a Lead Graphic Designer on the ESA committee, I not only managed
promotional materials and
schedules for school-wide events, but also mentored younger students. I taught
them how to design
posters, manage deadlines, upload content properly, and stay organized under time
constraints. This role
required patience, clear communication, and approachability skills that are essential
when supporting
students in residence.

In addition, my experience coaching youth sports has strengthened my ability to guide and support
others. As
a U13 basketball coach, I worked closely with younger students to help them develop
teamwork,
communication, and mutual respect. I focused on creating a structured but welcoming
environment where
everyone felt included and confident contributing. Similarly, as a soccer coach, I
helped manage group
dynamics and encouraged collaboration in both competitive and casual settings.
